## **Good practice examples from Slovenian municipalities**

**10 YEARS TO REACH EU TARGETS:  
HOW TO MAKE IT HAPPEN?**

## Wider frame and drivers

- EU targets, no additional national obligations
- closures of substandard landfills
- very limited incineration
- no EU funds for waste infrastructure in the 2013-2020 financial perspective
- public awareness and pressure

## Network of municipalities on the path to Zero waste

- transcending EU targets
- custom-tailored targets (better results, engagement)
- currently 9 municipalities covering 17 % of the population
- various reasons for joining
