6 priorities of the sustainable food strategy for Bruges:

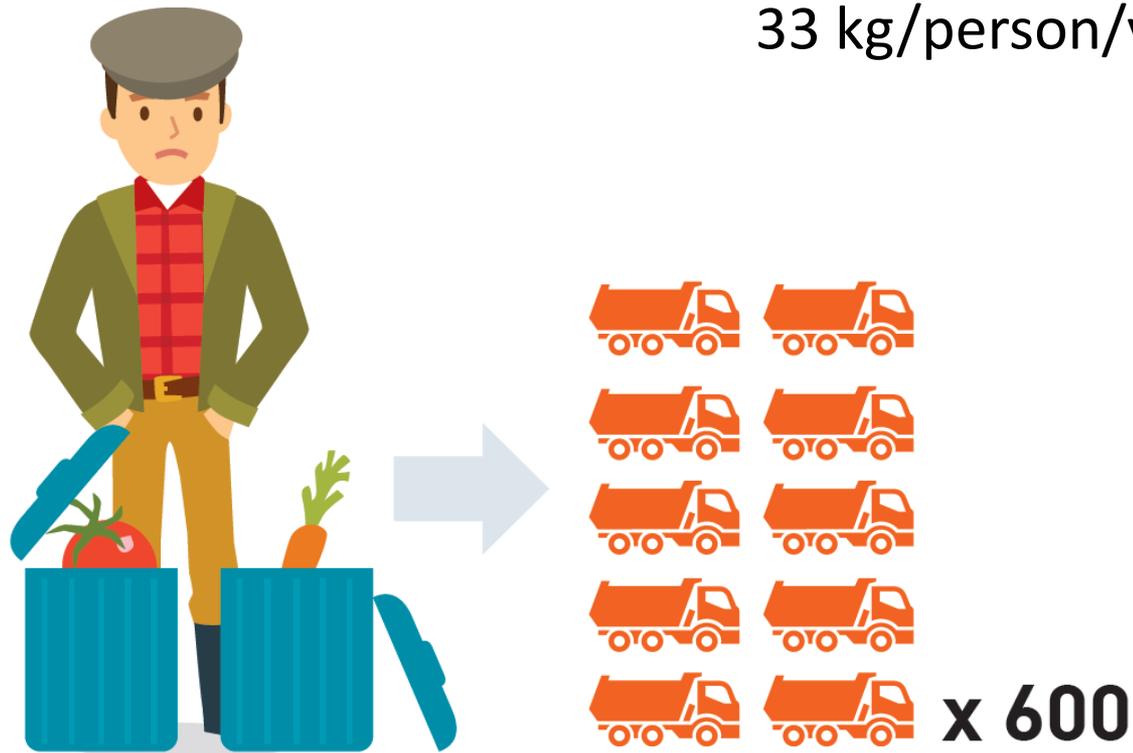

- 1 Short chain
- 2 Urban gardening
- 3 Urban agriculture
- **4 Food waste prevention (prevention – redistribution)**
- 5 Fair trade
- 6 Education

Manual sustainable food on events

Food waste in Flanders region

33 kg/person/year!

Food waste diagnosis results in actions

- *thesis about foodwaste in retailsector (supermarkets)- FLAVOUR (interreg)
- *foodwaste project in healthcare sector
- *foodwaste estimation tool (foodwin)
- *2020-2022: climate project: foodwaste household

Food waste measurements in retail sector

*thesisstudent social work
input from supermarkets and social
organisations/volunteers

➔ 15000 kg foodsurplus/week

Now: 70 ton/year is collected

Food waste measurements in retail sector

*to measure is to know- estimate CO₂ reduction

Reduction of 20% foodsurplus (150 ton)

= 381 ton CO₂ reduction

(~ 2540 solar boilers)

Food waste in health care

- 18- 40% food waste in healthcare (UK- Netherlands)- possible to reduce by half
- Estimated in Flanders: 15.240 ton/year
- Bruges?

Food Waste in health care

Invulschema 4 : Bordresten. Tel per afdeling het aantal componenten die op de borden overblijven. Gehele stuks, tel je als 1. Daarnaast kan je ook inschatten of 1/2 of 1/4 overblijft van elk component.

Component	115		Component	125	
	Afdeling 1	Afdeling 2		Afdeling 1	Afdeling 2
Confituur (nm+diab)	3,5x	3x	Brood met korst	10 Sn.	10 Sn.
Chocopasta (nm+diab)	1x	1,25x	Brood zonder korst		
Peperkoek			Beschoit		1x
Honing			Sandwich		0,5x
Luikse siroop			grany		
Speculaas			vitabis		
Bruin suikerpotje			cornflakes		
Speculaaspasta			Gekookte ham	113	
boter/marge/minar	5,5x	8,5x	Kalkoenham		
Yoghurt (+ of - suiker, met of zonder fruit of vol)	2x	3x	Salami		
Appel			Smeerpastei		
Sinaasappel			Ham		
Banaan			Hardgekookt ei		
Halve banaan			Sneden kaas		1,5x
Kiwi	1x		Smeerkaas	0,5x	1x
Blikfruit (+ of - suiker)			Gouda		
Caramelflan			Magere witte kaas		
Rijstpudding			Brie		
Suiker/zoetstof	15x	5x	Fruitkaas		
Pap			Pudding	2x	1x
Melkecom	7x	4x			
Volle melk		1x			

MIDDAG

Warme Maaltijd
Datum: 11-10-14

Keuken boven- Afwas

Invulschema 1 : Hoeveel plateaus komen in totaal voor de twee afdelingen terug?

Afdeling 115	20	Afdeling Q0-125	13 +
--------------	----	-----------------	------

Invulschema 2 : Hoeveel maaltijden zijn volledig onaangeroerd (incl soep en dessert)?
Tel het aantal onaangeroerde maaltijden op de karren.

Afdeling 115		Afdeling Q0-125	11
--------------	--	-----------------	----

Invulschema 3 : Bordresten? Verzamel per afdeling de bordresten per fractie in de emmers en weeg de emmers. Doe dit voor de twee afdelingen apart.

Afdeling	Groente + bak(g)	Zetmeel + bak (g)	Vlees + bak (g)	Samengesteld + bak (g)	Soep + bak (g)	Saus+ bak (g)	Desser + bakt (g)
Afdeling 115	1053gr	1109gr	1540gr		138gr		
Afdeling Q0							

Opmerkingen:

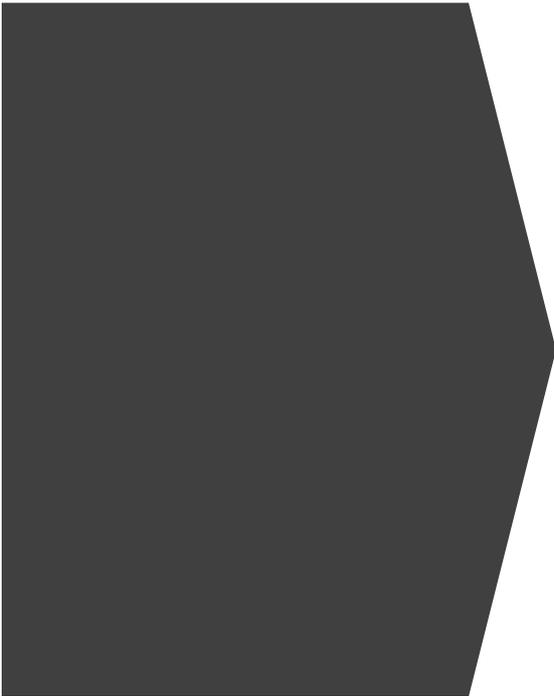

1 becood maaltijd: 3 sn becood, 1/2x melkeoom, 1/2x suikere, 1x conf.
3 desseets

Result study:

30-40%
foodwaste

Food Waste in health care

- 
- 287 gr foodwaste hot meals
 - 318 ton/yr foodwaste Bruges healthcaresector
 - ~1017 ton CO₂ emitted
 - Flanders: 12.000 ton foodwaste/yr

Food Waste in health care

- *Lessons learnt
- *Dissemination and evaluation
- *manual
